

# WHAT DOES IT TAKE TO BE AN ENTREPRENEUR?

Army Institute of Management and Technology had organized a guest lecture on the 27th of March at 12:00 pm, the speaker for the lecture was Mr. K.S Bhatia a visionary and diligent entrepreneur, an MBA from IMT Ghaziabad with 18 years of experience in the pumping industry.

Dr. Rana Singh, Director of Army Institute of Management and Technology felicitated the honorable guest lecturer Mr. K.S. Bhatia. Shefali Tyagi, student of MBA 1st year introduced the speaker to the audience.

In his lecture, Mr. Bhatia started on a very heart touching and emotional note stating his life stories, struggles, his failures and downfalls. He shared WITH the students the phase of his life where he went into coma for 13 days and explained how significant is the no. 13 in his life. He very gracefully taught the audience the real meaning of a start up and what does it take to be an entrepreneur. He eloquently added that one should dream really big and make impossible turn into possible. He shared the tag line of his portal, Pumpkart.com- "jo nahi ho sakta wahi karna hai" - impossible is nothing. Proudly he told us that Pumpkart came into limelight when Sundar Pichai, CEO of Google cited Pumpkart's success story in front of our honorable Prime Minister Narendra Modi at Digital India dinner for toptech CEO'S at San Jose, California, USA.

The session ended with students asking queries related to entrepreneurship and the mindset required to tackle risks. Our Director Dr. Rana Singh presented the Vote of Thanks at the end. Overall it was a brilliant session where the students were fostered and their minds were stimulated with positivity and a more focused path.
